Our Policy

Welcome to the web site (the “Site”) of 24COMS (“24COMS”, “we”, “us” and/or “our”). This Site is operated by 24COMS and has been created to provide information about 24COMS and our products and services (together with the Site, the “Services”) to our Service visitors (“you”, “your”).

This Privacy Policy sets forth 24COMS’s policy with respect to information including personally identifiable data (“Personal Data”) and other information from visitors to the Site and Services.

- *Non-Identifiable Data:* When you interact with 24COMS through the Services, you share certain personal non-identifiable information. Such information, required for various technologies, can presently not be used to specifically identify you. 24COMS may temporarily store such information to improve service and client satisfaction.
- *Aggregated Personal Data:* In an ongoing effort to better understand and serve the users of the Services, 24COMS often conducts anonymous research on demographics and use of service. This aggregate information does not identify you personally.
- *Location Information:* Our Service may collect and use your location information to provide you certain conveniences and functionality of the Services.

Our Use of Your Personal Data and Other Information

It is just obvious 24COMS may use the Personal Data you provide in a manner that is consistent with this Privacy Policy. If you provide Personal Data for a certain reason, we may use the Personal Data in connection with the reason for which it was provided. Links to Other Web Sites

This Privacy Policy applies only to the Services. The Services may contain links to other web sites not operated or controlled by 24COMS (the “Third Party Sites”). Integrating Social Networking Services

One of the special features of the Service is that it allows you to enable or log in to the Services via various social networking services like Facebook or Twitter (“Social Networking Service(s)”). By directly integrating these services, we make your online experiences richer and more personalized. To take advantage of this feature, we will ask you to log into or grant us permission via the relevant Social Networking Service. When you add a Social Networking Services account to the Service or log into the Service using your Social Networking Services account, we will only use relevant information necessary to enable the Service to access that Social Networking Service and your data contained within that Social Networking Service. As part of such integration, the Social Networking Service will provide us with access to certain information that you have provided to the Social Networking Service, and we will use such information in accordance with this Privacy Policy. However, please remember that the manner in which Social Networking Services use, store and disclose your information is governed by the policies of such third parties, and 24COMS shall have no liability or responsibility for the privacy practices or other actions of any Social Networking Services that may be enabled within the Service.

You may also have the option of posting your 24COMS activities to Social Networking Services when you access content through the Services (for example, you may post to Facebook that you performed an activity on 24COMS); you acknowledge that if you choose to use this feature, your friends, followers and subscribers on any Social Networking Services you have enabled will be able to view such activity.

24COMS takes reasonable steps to protect the Personal Data provided via the Services from loss, misuse, and unauthorized access, disclosure, alteration, or destruction. However, no Internet or email transmission is ever fully secure or error free.
